

5<sup>th</sup> International Symposium  
on Environmental  
Biotechnology and  
Engineering 2016

July 25-29, 2016  
Buenos Aires, Argentina

**CALL FOR ABSTRACTS**

First announcement

**CALL  
FOR  
ABSTRACT**

## FIRST ANNOUNCEMENT

---

The 5<sup>th</sup> International Symposium on Environmental Biotechnology and Engineering 2016 (5ISEBE) will be held in Buenos Aires, Argentina, during July 25-29, 2016. Detailed information will be published in the Symposium website: [www.unsam.edu.ar/5isebe](http://www.unsam.edu.ar/5isebe). The deadline for abstract submission is April 15, 2016. The system for online registration and payment will be open and announced soon.

The first and the second *International Meeting on Environmental Biotechnology and Engineering (IMEBE)* were held in Mexico while the third one was moved to Spain. Due to the success of the event and the increased audience, in 2014 this conference changed its name from Meeting to Symposium and the 4<sup>th</sup> *International Symposium on Environmental Biotechnology and Engineering (4ISEBE)* was held in Mexico. The 5ISEBE is a natural continuation of these previous conferences.

This Symposium focuses on discussions and debates by recognized researchers and scientific leaders at several state-of-the-art environmental topics such as water and soils remediation processes, biotechnology, nanotechnology and chemistry. Attending to 5ISEBE allows you to share your knowledge on environmental topics and to learn the latest practices, technologies and innovations concerning your field of expertise.

The main activities of 5ISEBE will consist of:

- Plenary sessions
- Oral presentations
- Poster sessions
- Round tables
- The best poster and oral presentation will be selected. Awards will be given to the respective authors during the closing ceremony.

## TOPICS

---

Contributions are invited on all aspects of Environmental Biotechnology and Engineering. The related disciplines and particular topics for this conference are as follows:

- Renewable and Alternative Energies and Biorefineries (01)
- Sustainability and Environmental System Analysis (02)
- Soil and Sediment Remediation (03)
- Groundwater and Aquifer Remediation (04)
- Green Materials and Biomaterials (05)
- Solid and Hazardous Waste Management and Treatment (06)
- Microbial Ecology (07)
- Molecular Biology Applications to Environmental Problems (08)
- Wastewater Treatment (09)
- Risk Assessment and Environmental Impact (10)
- Control and Modeling of Environmental Processes (11)
- Environmental Chemistry (12)
- Environmental Education (13)
- Environmental Engineering (14)
- Environmental Nanotechnology (15)
- Environmental Toxicology (16)
- Climate Change (17)
- Environmental Health (18)

Note that each subject has a number code at the end.

## ABSTRACT PREPARATION AND SUBMISSION

---

	<b>Deadline</b>
<b>Abstract submission</b>	April 16, 2016
<b>Notification of abstract acceptance</b>	April 30, 2016
<b>Submission of full-length articles</b>	June 10, 2016
<b>EARLY REGISTRATION</b> Deadline for registration with discount	<b>May 15, 2016</b>

---

Please prepare the abstract file in MS Word. The name of the file should be as follows: Abstract-Code-Last\_name-First\_name\_initial.doc. For example: Abstract-05-Pérez-R.doc

The “code” corresponds to the number found in the topic to which your abstract belongs to. This simplifies abstract identification.

If you are submitting more than one abstract, please add a correlative Arabic number (1, 2, etc.) after the first name initial of the author in the file name. For instance, two abstracts from the same author should be named as follows: Abstract-05-Pérez-R1.doc and Abstract-05-Pérez-R2.doc.

Abstracts must be submitted to [5isebe@unsam.edu.ar](mailto:5isebe@unsam.edu.ar) with the following text in the email subject for identification: Abstract-Code-Last\_name-First\_name\_initial (same as the file name). Please check the template attached to this e-mail and in the website for further details.

At the time of submitting your abstract, in your e-mail please state your presentation preference: oral (platform), poster or no preference. When sending the e-mail you also have to confirm if you wish to present a full-length article.

The official languages of the Symposium are English and Spanish. If English is not your native language, ask for a review by a native English speaker for correct syntax, style, and spelling, before sending the abstract (grammatical errors will be responsibility of the authors).

Receipt of your abstract will be acknowledged by e-mail within five working days.

Abstracts received by April 15, 2016 will be reviewed for technical merit and relevance. When assigning accepted abstracts to program slots, the Evaluation Committee will consider the authors' stated preferences regarding topic and presentation form (oral or poster), although the final setting will be based on the best overall design of the Symposium program.

Committee's decision on each abstract will be mailed and e-mailed to the Corresponding Author. If the abstract is accepted, this letter will state the oral or poster session to which it has been assigned, and will provide further information on preparing the presentation.

**Please be aware that a maximum of two presentations by the same registered author will be accepted.**

Abstracts will be published in the Symposium Book of Abstracts.

## **SYMPOSIUM ELECTRONIC BOOK OF ARTICLES**

---

Full-length articles are not mandatory. Instructions for the preparation of articles and further details regarding their publication will be given within the next circulars.

## REGISTRATION

---

*Registration fees (in US dollars) are as follows:*

	<b>Paid by May 15, 2016</b>	<b>Paid after May 15, 2016</b>
<b>Industry</b>	500	550
<b>Government - Academic</b>	250	300
<b>Student</b>	125	150

For registering as a Student, a valid, official letter of statement from the Institution where the person is registered as undergraduate or graduate student must be presented.

The registration fee covers admission to all oral and poster sessions, exhibits, and coffee-breaks. Registration materials will include the Final Program, the Electronic Book of Abstracts, and the electronic book containing edited, full-length articles presented during the Symposium.
